

MAKING YOUR GLOG USING GLOGSTER

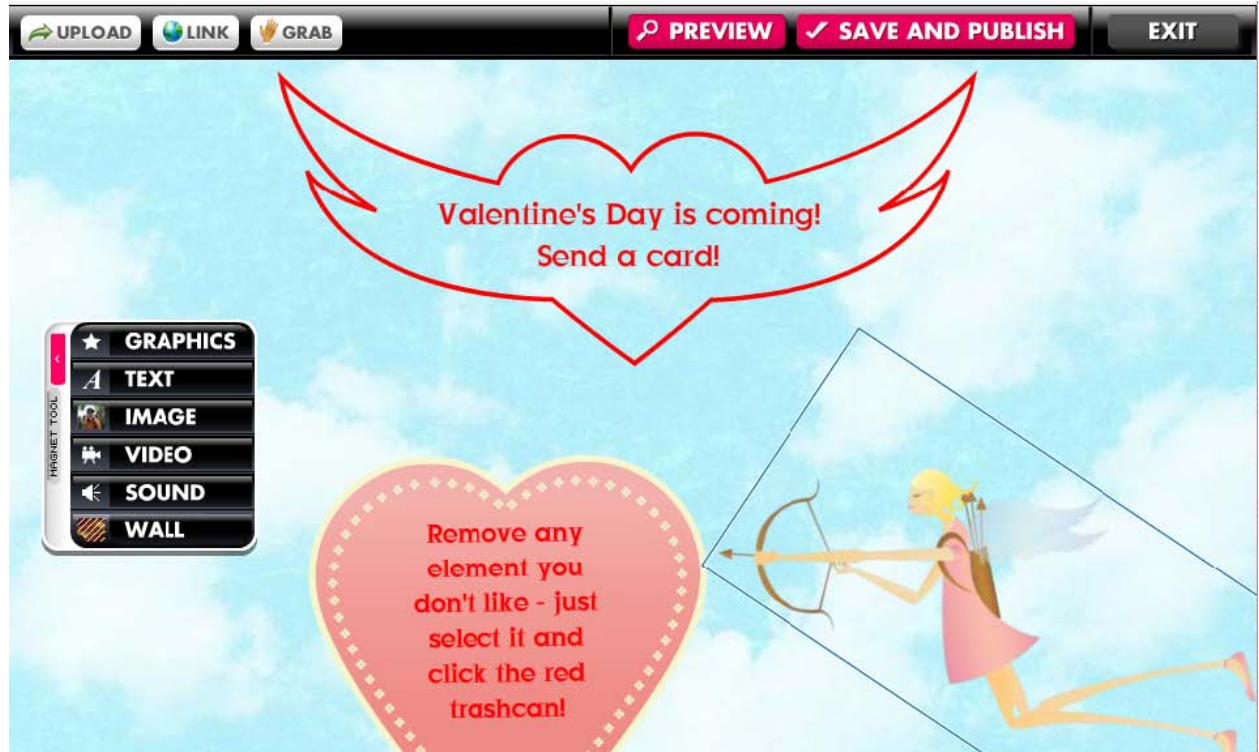

LOG IN:

1. Go to **<http://edu.glogster.com>**.
2. Click **LOG IN** in the upper-right corner.
3. Enter your given **NICKNAME** and **PASSWORD**.
4. Click **EDIT MY PROFILE** in the upper-right portion of the screen.
5. Type in your name in the text box. Please use the name format that your teacher assigns. This assigns your name to your glogs on your teacher's class list. (You don't have to enter any birth date, address, or address information).
6. To change your password, click on **ACCOUNT SETTINGS** in the upper-right portion of the screen. Change your password to something you will remember.

(WRITE IT DOWN!)

CREATE A GLOG:

When you open a new Glog, you will see an example.

To remove any elements you don't want to use in your Glog, click on element and then click on the **RED TRASH CAN**.

At the top of the Glog screen, there will be a rectangular box labeled “**Glog name**” next to it. When you first open your Glog, it is only identified with a Glog number. Click in the box and give your Glog a unique name.

Backgrounds: To add a background, select “Wall” from the tool box. (The toolbox may be repositioned on the page as needed by sliding it.) The **Glog Wall tab** places the background on the actual glog.

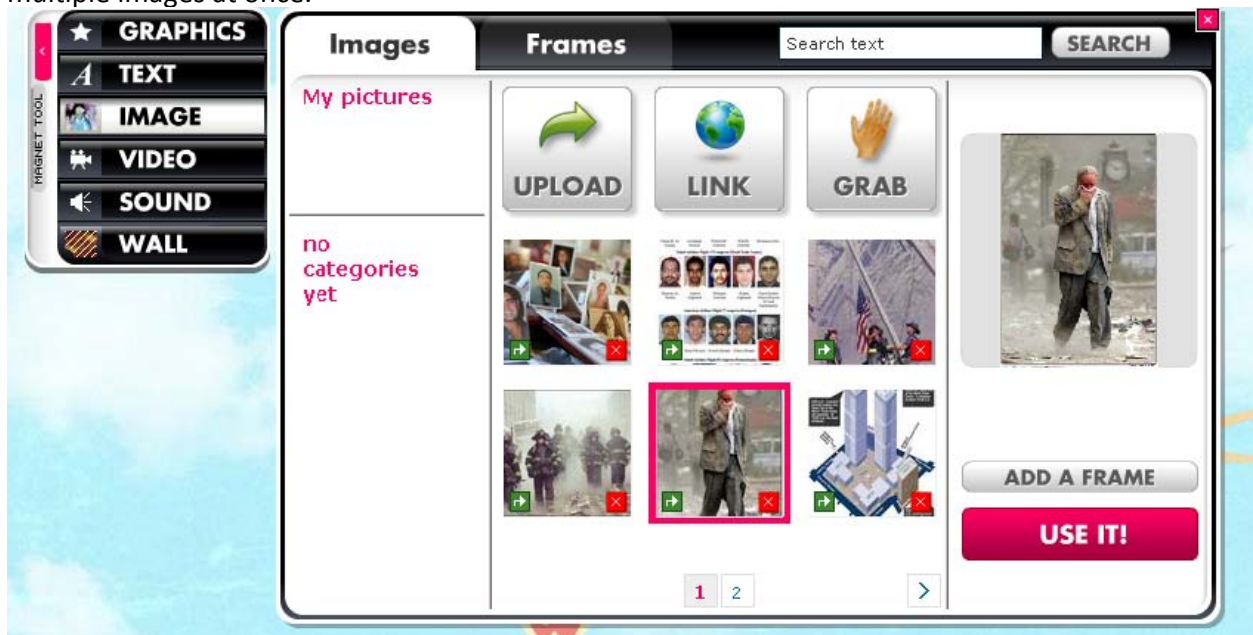

The **Page Wall tab** changes the color or pattern of the border outside of the glog wall.

Graphics: Use the graphics button to include many of the decorative graphics provided by Glogster. Search through the collections, click once on your selection. It will appear by itself in the preview area above the USE IT button. Click on **USE IT!** to add the graphic to your Glog.

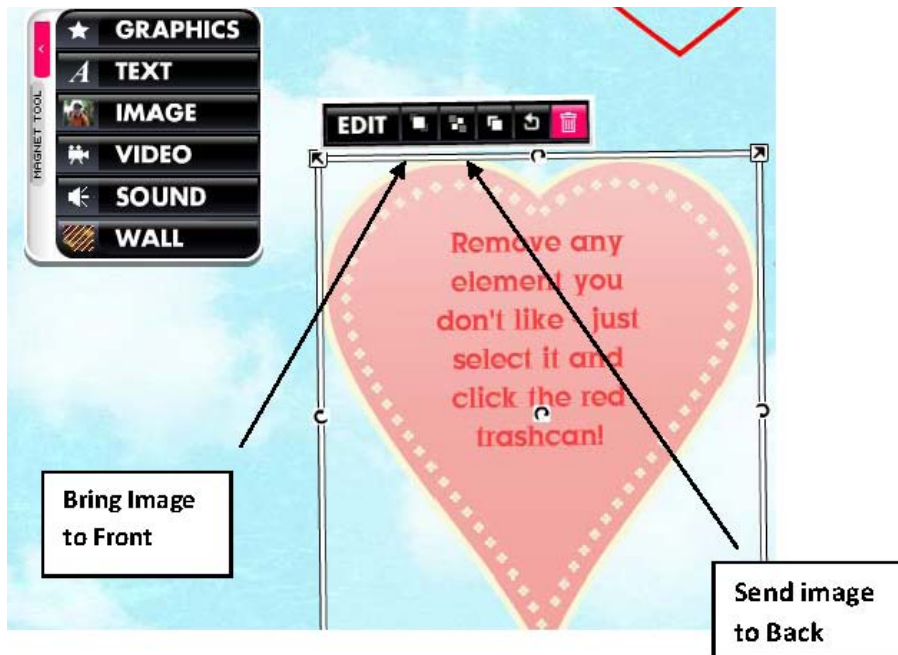

Images: Use the “Image” button from the toolbox to upload photos, pictures, sound files or video files. Click the “Upload” button and browse to the files on your network folder or flash drive. (It’s just like adding an email attachment.) Select the image you want and click “OPEN.” Your photos will be added to your online Glogster library. You may hold down the SHIFT key to select multiple images at once.

To add images to the Glog, select your image, and click “USE IT!” You may use it “as is” or you may add a frame by clicking the “**ADD A FRAME**” button. You will be able to try out and select from a wide variety of frames. When you add your image, it always moves to the bottom of the screen. Locate it and drag it to the desired position. It is easy to move it to any location on the screen.

¹**To link to an image on the Web**, locate the image (ex. Google Image search), open the image to view it full size. Copy the URL of THAT page. In Glogster, click on IMAGE, then LINK. Paste the URL into the text box, and click ADD TO YOUR FILES. Close the Link box when done. Select the image in the main box, and click USE IT.

Move to Front, Move to Back: You may layer images on the screen by selecting an image and clicking. When the edit box opens above the image, use the first button after the “**Edit**” button to move an image to the front. Use the second button after the “**Edit**” button to move an image to the back.

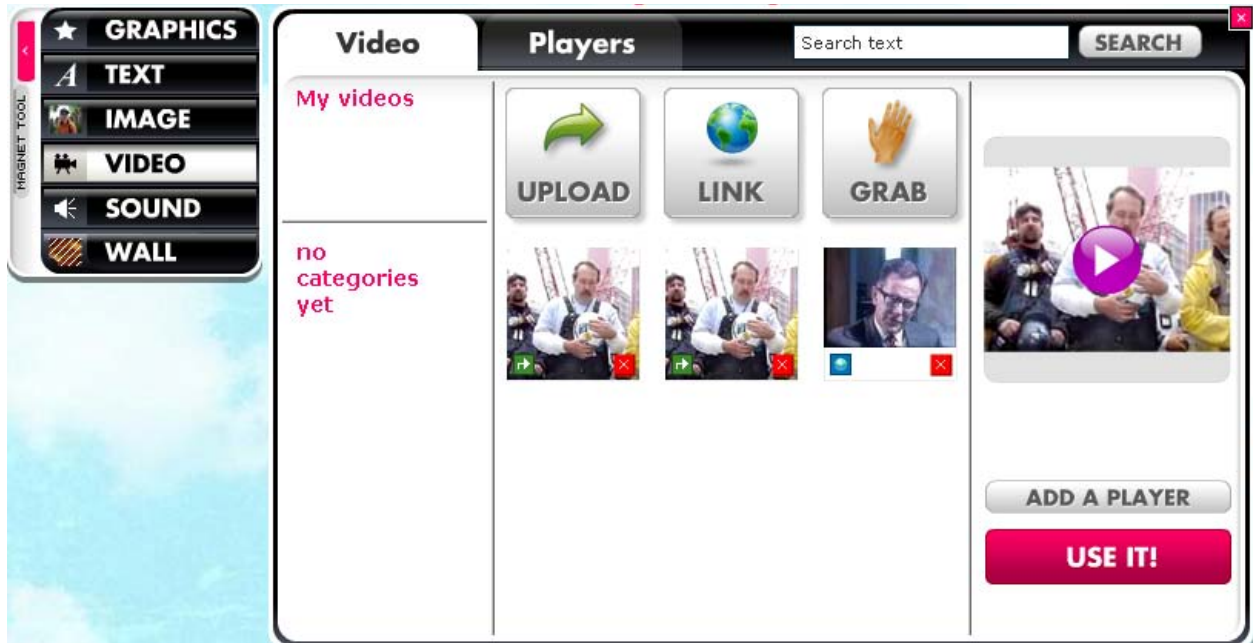

Edit Button: When you click the **EDIT** button, the tool bar changes to this:

The first button after OK lets you change the color of a graphic, the second button lets you insert a hyperlink, the third button enables **TEXT EDITING** and the fourth button lets you add **EFFECTS** to an image, graphic, or text, such as a shadow or making it more transparent. Click OK after you complete the editing to return to the previous tool bar.

Video: To add a video (such as *YouTube*) from the web, select the **VIDEO** tool and select either “**UPLOAD**” or “**LINK**.” If you have downloaded a video to your computer, choose “**UPLOAD**” and browse to the video just as if it were a photo. If the video is on the web, click “**LINK**.” The link screen will open and allow you to type or paste the URL for the video into the blank. Click “**ADD TO YOUR FILES**” and the video will be uploaded. (You will not be able to watch the video in the edit mode.)

You can also add a **PLAYER** to your video clip by selecting the **Player tab**, choosing a player, then selecting ADD PLAYER. If you click on the player, and then the EDIT box for the player, this tool bar will appear:

Use this to set your video player to play automatically when the Glog is opened

Text: To add text, select “**TEXT**” from the toolbar. You may choose a textbox (default), a title box, bubbles or stickers for your text. A wide variety of text boxes are available from each category. Select the textbox you want click “**USE IT.**” The textbox will appear on your screen.

Click “**Edit**” above the textbox to type text. Once you have typed your text, click the “**Ab1**” button on the menu to change the font size and style, or to bold, center, or add italics. The color chart button will allow you to change the font color. Color effects may be changed by the **fx** button. **TIP:** To create a rectangular textbox, as in a title banner, choose “**TITLES.**” For a regular (square) textbox, use the default textbox. You can change the size of a textbox, but it will remain square. You cannot pull the sides to make it rectangular. To create text with no box or frame around it, choose “**Basic Text,**” “**Basic bubble**” or “**Basic Title.**” **Adjust the font size from the TEXT EDIT box so that all text is visible.**

Some textboxes allow a great deal of text to be entered, and have a scroll bar on the right side to use during presentations.

Hyperlinks: You may add a hyperlink to text by using the “**link**” button. Click the “**Edit**” button, click the “**Link**” button and type the URL in the box. Click “**OK.**” To add a hyperlink to images, select the image by clicking on it. Click the “**Edit**” button. Then, click the “**Link**” button. Type in the URL and click “**Okay.**”

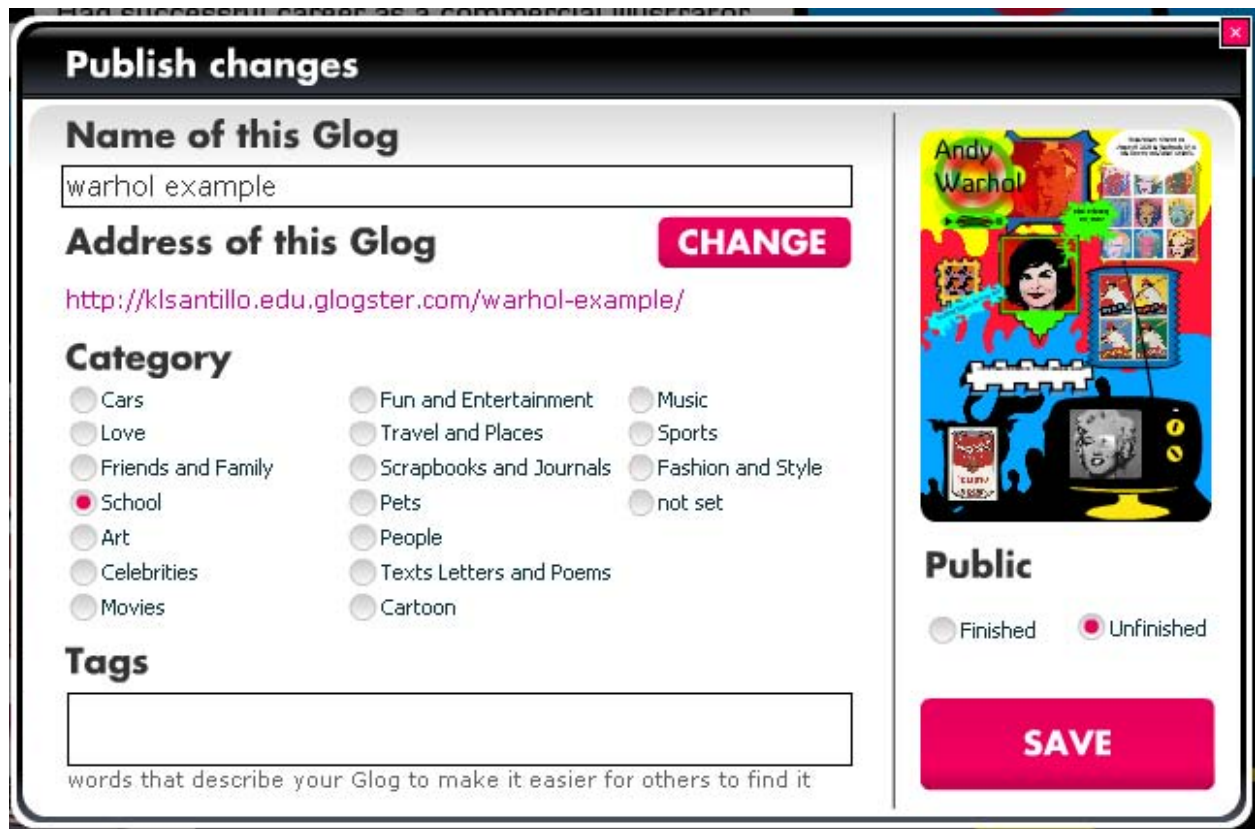

Hyperlink
Button

Sound or Music Files: Insert same as Video files. There is also an **AUTOPLAY** button for music files if you click on the EDIT button for the audio player and select the AUTOPLAY feature as you do for a video.

Saving Your Glog: save your Glog by using the “**SAVE AND PUBLISH**” button at the top or bottom of the screen.

The next screen will appear.
